

The Real Secret Behind Learning That Sticks

The Problem

Companies invest millions in content each year, yet learning often falls flat.

Employees click, complete... and forget.

It's not the content—it's the culture.

The Learning Culture Advantage

Organizations with strong learning cultures:

56%

See a 56% increase in employee skill preparedness (Gartner, 2023)

Experience higher productivity & engagement through psychological safety (APA, 2024)

70%

Are 70% more likely to retain and develop employees through engaged leadership (Gallup, 2015)

What Actually Builds a Learning Culture

Not just: AI-curated playlists, bite-sized modules, digital libraries

Instead...

Leaders modeling curiosity

Feedback that flows both ways

Safe spaces for learning and experimentation

Investment in people, not just platforms

The Unboxed Difference

At Unboxed, we don't just deliver content—we build capability.

Our platform and approach include:

Custom Coaching & AI Feedback Tools that empower managers to model learning

Behavior-Based Metrics that track actual skill growth—not just completions

Practice-First Design that fosters safe, repeatable, scalable performance

Let's build a culture where learning sticks.

Visit unboxedtechnology.com to see how we can help.
